

137 industrial vacuum cleaner

The All-Purpose Vac

137

The 137 is ideal not only for general cleaning, but also for collection and containment of fine powders and toxic debris in specialized applications. It comes standard with many features and can be adapted for dry or liquid collection, making it highly effective for a variety of industries.

- Large main filter provides more surface area for filtering and resists premature clogging
- External filter shaker handle keeps the main filter free of clogging dust and maintains the vacuum's maximum suction power and filtration performance
- A sound suppressor diffuses the exhaust air for optimum noise control
- Large capacity accessory basket provides convenient on-board storage of accessories
- Strong, solid construction manufactured in high quality materials (steel or optional stainless steel)
- The control panel features illuminated on/off switches and manometer to measure suction performance
- 16-gallon collection container comes standard; 26 gallon is an available option
