

# DUAL WHEEL

# R100, R110, R120 SERIES

## Heavy Duty Dual Wheel

Load Capacity: 820 to 9,600 lbs.

### Quality Features

- INTEGRALLY FORGED KING PIN.**  
 Solid king pin is integrally forged with upper raceway using SAE-1050 quality grade steel. Used with a slotted nut to allow for proper bearing adjustment whenever necessary. Designed to be virtually indestructible!
- HOT FORGED STEEL CONSTRUCTION**  
 Top plate, yoke base and bearing retainer are hot forged using SAE-1050 hardening quality steel. Raceways are precision machined for 5/8" hardened chrome steel load bearings and tapered thrust bearing.
- FLAME HARDENED SWIVEL RACEWAY.**  
 All bearing raceways are flame hardened to extend service life, reduce brinelling from shock loads, and to generally improve swivel performance.

Designed for improved stability and greater load capacity while minimizing overall height.

Due to better load distribution and the "differential action" of the dual wheels, less effort is required to change directions of the swivel.

Known for their dependability, durability, and longevity, these workhorses of the industry will provide many years of steady, trouble-free performance. Standard finish is industrial blue enamel.

### Wheel Selection

**Universal Wheel Brake**

## Universal Wheel Brake

The strongest, most positive foot-operated caster available. Once locked, this brake cannot be forced open under any amount of abuse until the foot bar is raised to the unlocked position. Works equally well on hard tread or soft tread wheels. Is fully adjustable to compensate for wheel wear, and is even effective on wheels with thread guards or tapered roller bearings. All parts, according to their mechanical functions, stresses, strains and wear are heat treated for longer life.

**Heavy Duty Swivel Lock**

## Heavy Duty Swivel Lock

This husky, plunger-type swivel lock, with cast malleable iron body can be welded to any of the heavy-duty casters.

Diameter	Tread Width	Load Capacity	Wheel Material	Bearing	Swivel Part Number	Rigid Part Number	Approx. Weight	Overall Height	Swivel Radius
