

UNIVERSAL BED FRAME CASTER

GREEN

Made from recycled materials and 100% recyclable

STRONGER

Composite materials are 20% stronger than old-fashioned rug runners

AUTOMATIC

The built in AUTOMATIC brake impedes rolling

FASHIONABLE NON-MARKING

Slick, high fashion look makes this a must have on all high end bed frames

Impact resistant wheels won't mark flooring

UNIVERSAL

Fits all existing and new frames

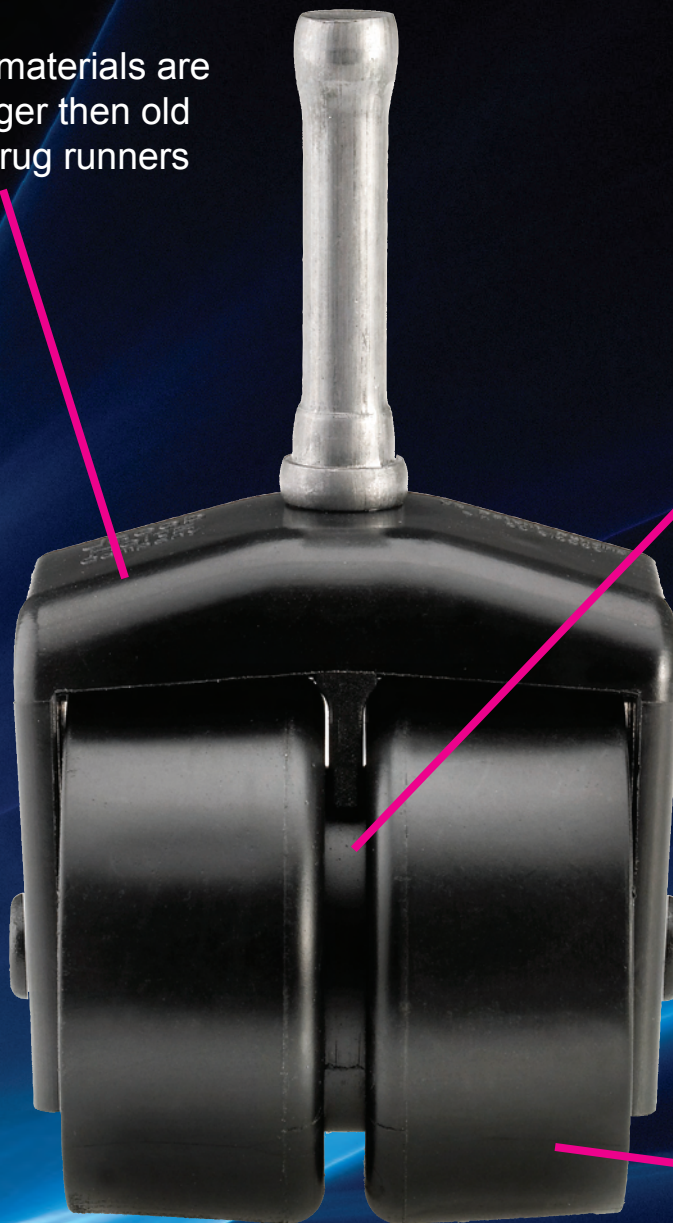

Composite materials are 20% stronger than old fashioned rug runners

Built in brake works automatically

MADE IN AMERICA

PATENT PENDING

Impact resistant polypropylene wheel

- No plating and made from recycled materials make this 100% recyclable.
- Composite materials are 20% stronger than old-fashioned rug runners.
- Certified to 150 lbs. per caster.
- Center tab automatically functions as a brake when weight is applied, which eliminates the need for old-fashioned rug runners with a manual brake.
- Slick high fashion look will make this a must have on all high end bed frames.
- Weighing only 84 grams, this caster reduces inbound freight by 56% and offers the manufacturer the ability to ship more bed frames.

- 1 wheel will replace 4 SKU's – wide RR, wide RR/brake, narrow RR, narrow RR/brake.
- Wheel width of 2" eliminates the need for 1 3/4" and 2 1/4" inventory
- Requires NO change in bed frame design - caster height, stem and off-set are EXACTLY the same as traditional bed frame casters.
- Load tested, dynamic tested, and field tested on a bed to insure functionality in the field.
- Not susceptible to radical changes in steel prices.
- Designed using advanced engineering techniques and finite element testing to insure performance.
